Profile

Front-end Developer with 3+ years of experience in building responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript and various front-end frameworks (React JS). Highly motivated software engineer with a passion for education and language learning. Open to learn new skills. Received Confirmation of Permanent Residency (COPR) and will arrive Canada by 2nd week of October. Eager to contribute technical expertise to innovative projects in the Canadian tech industry.

Experience

FRONTEND DEVELOPER | WIPRO | DECEMBER 2020 – JUNE 2024

- Developed and maintained user interfaces for web applications, ensuring cross-browser compatibility and responsiveness.
- Ability to work independently.
- Experience with popular React JS workflow such as Redux.
- Experience with React Hooks and also class components.
- A strong willingness to take initiative, work autonomously, and manage time effectively to meet pressing deadlines.
- Implemented designs provided by UI/UX designers into working code.
- Familiarity with RESTful APIs.
- Used bootstrap and media queries for building responsive web applications.
- Participated in backend and frontend code reviews, providing and receiving constructive feedback to improve code quality.
- Collaborated with design teams to implement new features and enhance user experience.
- Collaborated closely with the Senior Backend Engineer to integrate APIs and ensure seamless functionality.
- Optimized website performance through code refactoring and implementing best practices.
- Ensuring the code is maintainable while optimizing the UI/UX for a seamless user experience and high performance for a growing user base.
- Conducted code reviews and provided feedback to ensure code quality and maintainability.
- Collaborated with cross-functional teams to troubleshoot and resolve technical issues.
- Fixed 300+ sonar issues including 1 major issue which was not solved for more than a year.
- Removed 500+ inline CSS and made it into an external CSS file.
- Implemented Google Analytics in code.
- Played a major role in production.
- Actively involved in Troubleshooting, debugging issues, and fixing bugs.
- Experienced in working with AGILE and SCRUM setup.
- Familiarity with code versioning tools such as Git.
- Mentored junior engineers, providing guidance on coding best practices and problem-solving techniques.
